1 National Laws
Introduction
National Laws
- Applications: Clarity, Stability, Transparency, and Fairness in the Content and Procedures of National Laws
- Applications: National Law Variations regarding Retail Gasoline (Petrol) Sales: The US, Indonesia, China, Nigeria, and Venezuela

Families of National Legal Systems
The Common Law System
The Civil Law (Code) System
Islamic Law
- Applications: The Place of Islamic Law in a Modern National Legal System
- Applications: The Impact of Islamic Law on Oil- and Gas-Related Finance

Do Contracts Make Law?
Additional Resources
Problems
Notes

2 International Law
What Is International Law, of What Does It Consist, and What Are Its Practical Limitations for International Oil and Gas?
Limitations of International Law in Its Present Form
Is International Law Really Law?
- Applications: Unilateral Changes in or Revocation of Treaty of Contract Obligations: Argentina, Venezuela, and Saudi Arabia

International Law and National Law in the Hierarchy of Law
3 **Treaties Promoting International Trade and Producer-, Consumer-, and Investor-State Interests**

**International Trade Agreements**

**The World Trade Organization (WTO)**
- Applications: The WTO and the Energy Industry
- Applications: Exceptions to the WTO’s Antidiscrimination Rules

**Free Trade Area Agreements**

**The European Union (EU)**
- Applications: EU Law Regulation of Europe’s Energy Industry

**NAFTA and the Latin American Regional Trade Agreements**

**The Organization of Petroleum Exporting Countries (OPEC)**
- Applications: The Workings of OPEC

**The International Energy Agency (IEA)**
- Applications: National Strategic Petroleum Reserves
- Applications: Problems of Statistical Compilations

4 **National Export Controls, Foreign Investment Restrictions, Sanctions, Embargoes, and Boycotts**

**General Considerations**

**Export Controls**

**Foreign Investment Restrictions**
- Applications: Mexico’s Restrictions on Foreign Ownership
- Applications: Investment Restrictions on Russia’s Oil and Gas Resources and Companies
- Applications: The EU and European Member State Foreign Investment Restrictions: A Family Feud?
- Applications: European National Golden Share Laws Restricting Foreign Ownership or Control of National Companies

**US Law Restrictions on Foreign Investments**
Applications: Private Ownership of US Oil and Gas Assets by a Foreign State? The CNOOC Bid for Unocal

Sanctions, Embargoes, and Boycotts

Informal National Boycotts: The Case of Royal Dutch Shell in Argentina in 2005

Applications: Iran: US Sanctions and Regulatory and Enforcement Jurisdiction Issues

Applications: Libya and the Unwinding of US National Sanctions

Additional Resources

5 Dispute Resolution and Its Varieties

Varieties of Dispute Resolution Methods

Government Court Litigation as an Important Alternative

Applications: Examples of Nonarbitrable Litigation

Comparing Common Law System Litigation with Civil Law (Code) System Litigation

Noncriminal Litigation in a Common Law System

Applications: The US 2010 Macondo Oil Spill Common Law Litigation in Government Court, and Pretrial Discovery

Contrasted with Litigation in a Civil Law (Code) System

Advantages and Disadvantages of Each Litigation System

Additional Resources

Problem

Notes

6 Dispute Resolution Continued: Arbitration

General Characteristics of Arbitration

Applications: Oil and Gas Arbitration Cases

Laws and Treaties Favoring Arbitration

Applications: National Laws that Allow a Freeze of Bank Accounts to Secure Arbitration Awards: Venezuela in British Courts

Applications: Argentina: National Refusals to Recognize Arbitration Agreements or to Pay Awards

Applications: WTO Arbitration in Practice

Established Arbitration Institutions

Drafting the Arbitration Provision

The Institutional Procedures

Applications: Arbitrating the US Macondo Oil Spill Compensation Claims
Summary of Advantages and Disadvantages of Arbitration
■ Applications: The Uncertainties of Arbitration
When Arbitration May Be a Bad Choice
Additional Resources
Problem
Notes

7 **State Jurisdiction to Regulate, Enforce, and Adjudicate**
The Meanings and Categories of State Jurisdiction
Regulatory Jurisdiction
■ Applications: Doing Business as a Presence
Enforcement Jurisdiction
■ Applications: Can US Courts Regulate Working Conditions in Myanmar?
Adjudicatory Jurisdiction and Related Issues
■ Applications: Does Doing Business Locally Mean Submitting to Local Court Jurisdiction in All Things?
■ Applications: Russia’s OAO Yukos and the US Bankruptcy Court’s Jurisdiction
■ Applications: Recognition and Enforcement of Foreign Court Judgments: The Case of Chevron and Ecuador
Four Important Treaties that Set Standards for Adjudicatory Jurisdiction
■ Applications: The Race to the Courthouse as Establishing Court Jurisdiction in the EU
Recognition and Enforcement of Arbitration Awards
Additional Resources
Problems
Notes

8 **Special Defenses for States and State-Owned Oil and Gas Companies**
Sovereign Immunity
The Act of State Doctrine
■ Applications: The Special Defenses for States and State-Owned Companies in Oil and Gas Cases
Contract and Treaty Waivers of Special Defenses
Additional Resources
Problems
Notes

9 **Sovereignty Over and Ownership of Onshore Oil and Gas—Sovereignty Disputes between States**
General Patterns of Sovereignty and Onshore Oil and Gas Ownership
10 Sovereignty Over and Ownership of Offshore Oil and Gas—The Law of the Sea and Joint Development Zones

Introduction

Pre-UNCLOS History

The UNCLOS Water and Seabed Zones

States’ Rights and Obligations within the Zones

- Applications: A Coastal State’s Right to Ban Use of Its Ports: The Case of Turkey and Cyprus
- Applications: Potential Bottlenecks and Disputes Involving Straits
- Applications: Federal Structures of the US Government and their Effect on Sovereignty over the US Continental Shelf
- Applications: Vessel Registration and Iran Sanctions 2012
- Applications: Five Law of the Sea Disputes: East China Sea, South China Sea, Timor Sea, Western Sahara, and the Caspian Sea

The Deep Seabed Regime, Developed States’ Objections, and Present Status

Joint Development Zones

- Applications: JDZs for Nigeria-São Tomé, Malaysia-Brunei, Trinidad-Venezuela, and Mexico-US

Additional Resources

Problems

Notes
11 Negotiation and Bidding

Introduction

Applications: Bidding Practices and the Law of Contracts
Applications: Bidding in Libya, Ecuador, São Tomé, Iran, Nigeria, and Angola

The EU Hydrocarbon Licensing Directive
Licensing in the United Kingdom
US Government Offshore Leasing Procedures
Additional Resources
Problem
Notes

12 Host Country Development Arrangements and Their Varieties

Introduction to the Four Basic Models of Host Country and Multinational Oil Company Development Arrangements

Historical Background

Applications: The Shale Revolution and Fundamental Shifts in Balance of Power between Developing and Developed Countries?

The Concession (License) Model
Applications: Are Concessions the Wave of the Future?

The Government Participation Model
Applications: Examples of the Government Participation Model: Saudi Aramco and Rosneft

The Production Sharing Model

The Service Contract Model
Applications: Brazil and Its Forms of Development Arrangements

Practical Consequences of Categorizations
Applications: Accounting for Assets of a Production Company, and Standards for Recognizing and Valuing Its Oil and Gas Reserves

Additional Resources
Problem
Notes

Applications: Are Host Countries the New Multinationals?

Size of the Grant
Duration of the Grant
Host Country Control over Development
Management Rights Reserved to the Host Country
Compensation, Cost, and Cost Recovery Issues
Local Employment, Subcontracting, and Content Requirements
Sales of Production to State-Owned Oil Companies
- Applications: Local Sales Requirements in Indonesia
Local Delivery of Production
Other Important Provisions: Dispute Resolution, Stabilization, Force Majeure, Unitization, and Abandonment
- Applications: What Constitutes Force Majeure?
Additional Resources
Problems
Notes

14 **Compensation, Cost, and Cost Recovery Issues in Modern Development Arrangements**
Licenses and Concessions (Concessionary Systems)
Government Participation in the License/Concession
Production Sharing Contracts (the Contractual System)
- Applications: Varieties of Tax Issues in Alaska, Israel, the UK, and the US
Service Contracts
Additional Resources
Problem
Notes

15 **Participations and Joint Operating Agreements**
Participation Agreements: Bidding Agreements and Farmouts
- Applications: Is There Taxable Profit on the Farmout of a Participation Interest? The Case of Tullow in Uganda
Joint Operating Agreements and Highlights of the AIPN Model Form
- Applications: The Importance of the JOAs in Indonesia and Kuwait
- Applications: A Joint Venture as Operator of the Kashagan Field in Kazakhstan
- Applications: The US 2010 Macondo Well Spill in the Gulf of Mexico and Resulting Indemnity Claims By and Against the Operator and Nonoperating Interest Owners
Additional Resources
Notes

16 **Drilling Contracts and Service Agreements**
- Applications: A Norwegian Tanker and Drilling Rig Magnate
Drilling Contracts
- Applications: The 2010 Macondo Oil Spill in the US Gulf of Mexico and Drilling Contract Language
Model Contracts and the Master Service Agreement

Additional Resources

Notes

17 Environmental Protection Laws

Conflicting Interests Shaping Environmental Laws
- Applications: Oil, Gas, and the Greens

General Shape of National and International Environmental Law
- Applications: Soft International Law and Pipeline Financing in Peru

The Kyoto Protocol, Copenhagen Conference, and Paris Agreement
- Applications: Kyoto’s Reception and Effects in Various Countries

EU Environmental Law

US National Environmental Law and the NEPA
- Applications: The US NEPA Process
- Applications: Direct and Indirect Costs of Environmental Protection
- Applications: Russian Use of Environmental Law Objections for Nonenvironmental Ends
- Applications: US National Environmental Regulation of Oil and Gas in the US State of Alaska

Additional Resources

Problems

Notes

18 Decommissioning and Liability for Spills and Transboundary and Maritime Pollution

The Exxon Valdez Spill and Its Aftermath
- Applications: The Exxon Valdez Spill in Alaska: A Never-Ending Litigation

Other Major Ocean Spills prior to 2010
- Applications: The 2010 Macondo Oil Spill in the US Gulf of Mexico

History and Magnitude of the Decommissioning Problem

Summary of Major Treaties Relating to Maritime Pollution and Decommissioning Liability

Spill and Pollution Liability and Decommissioning Responsibility under National Law
- Applications: Industry Experience Examples with Oil and Gas Spills Since 2007

Contract Allocation of Spill Liability and Decommissioning Responsibility
Applications: The Case of Chevron and Ecuador: Is Contract Allocation of Decommissioning and Spill Liability a Sure Solution?

Additional Resources
Problem
Notes

19 Indemnity and Insurance Issues
Distinctions Between Indemnity, Release, and Insurance
Indemnity Agreements
Insurance Coverage
Applications: Risks and Losses Covered by Insurance: The US Gulf of Mexico and the Malacca Straits
Applications: Indemnification and Insurance Issues in the 2010 US Gulf of Mexico Macondo Oil Spill

Additional Resources
Problem
Notes

20 Bribery of Foreign Officials
Applications: Corruption’s Contribution to the Oil Curse
The US Foreign Corrupt Practices Act
Applications: The US Foreign Corrupt Practices Act in Operation
Treaties and Other National Laws Criminalizing Foreign Bribery
Applications: Meanwhile, Outside the United States
Applications: World Bank Sanctions for Violating Bank Anti-Bribery Standards

Warning Signs and Prevention of Foreign Bribery
Applications: Is There a Duty to Examine the Ownership of Local Companies Participating in Licenses? The Angola Case of Cobalt International Energy

Additional Resources
Problem
Notes

21 Land Transportation of Oil and Gas and Natural Gas Regulation
Natural Gas Economics; Regulatory Issues; and Transportation, Delivery, and Market Structures
Applications: Flaring Still Lives!
Applications: The International Natural Monopoly Problem in Natural Gas
Applications: International Pipeline Natural Monopolies and the Case of Russia’s OAO Gazprom
US Regulation of Natural Gas and Natural Gas Pipelines
EU Regulation of the European Gas Market
- Applications: European Union Member States’ Noncompliance with the Gas Directives
Gas Regulation in the UK
Planning for Cross-Border Pipeline Projects
- Applications: The Baku-Tbilisi-Ceyhan Pipeline
- Applications: Kazakhstan: A Landlocked State and Its Oil Pipelines
- Applications: A Pipeline for Peruvian Gas?
- Applications: The Cross-Boundary Pipeline Legal Structure
- Applications: The US-Canadian Keystone XL Heavy Crude Oil Pipeline and US Land Transportation of Shale Oil
- Applications: Russia’s Nonratification of the ECT
Additional Resources
Problem
Notes

22 Seaborne Transportation of Oil and Gas
Regulation of Tanker Transportation of Oil and Gas
- Applications: Canada May Have Regulatory Jurisdiction to Require Reporting by Ships in Transit, but Does It Have Enforcement Jurisdiction?
LNG Transportation and LNG Fixed Facilities
- Applications: Effects of Supply, Demand, and Other Factors on Pricing and Structure of LNG Contracts and Regulation
Additional Resources
Problems
Notes

23 Expropriation and Privatization Issues
General Considerations
- Applications: Private Ownership, Efficiency, and the Social and Political Implications
Expropriation under Customary International Law
- Applications: Argentina’s 2012 Expropriation of Repsol’s YPF Stock
Expropriation Compensation and Expropriation Insurance
Privatization
- Applications: The OAO Yukos Privatization and the Russian Oligarchs
24 The Basic Financing Framework

Introduction

Major Sources of Financing

Applications: Variety of Financial Arrangements: Where Do Countries and Companies Get Their Money

Applications: Investor Risk in Minority Share Ownership in State Owned Companies and the Case of Russia’s OAO Gazprom

Project Finance as an Example of Financing

Spending and Savings: What Do Countries and Companies Do with Their Money? Expenses, Reserve Replacement, and Sovereign Wealth Funds

Applications: Oil Stabilization Funds and the Strange Case of Chad

Comparisons and Contrasts: Financial Analysis of Individual Companies

Applications: The 2010 US Gulf of Mexico Macondo Oil Spill and Its Financial Effects

Applications: Analyst Views on ExxonMobil Corporation

Additional Resources

Problems

Notes

25 Operation and Regulation of Energy Markets

Applications: Derivatives as Hedges and Profit Centers

The Basic Derivatives: Forward Contracts, Futures Contracts, and Options

Applications: Contangos, Backwardations, and Oil and Gas Derivatives Markets’ Macro Effects

Applications: WTI, Brent, and the Principal Oil Price Indices and How They Operate

Applications: The Effects of Price Changes in the Underlying Commodity on Option Prices

More Complex Derivatives

Regulation of Derivatives and of Their Markets

Carbon Emissions: Trading and Derivatives

Additional Resources

Problems
